

Autumn 1 - May the Forces be with you!

Homework books and tasks will not presently be returned to school. Instead, homework should be evidenced by email. Please take a photograph of your child with their work or model and email it to j.butterwood@smat.org.uk

One self-selected homework activity should be completed by the following Friday and neatly dated and shaded.

Create a fact file about any type of force.	Create a model or experiment to illustrate how a force works	Research about a scientist who discovered or worked with forces
Make a model and test its water resistance (buoyancy).	Make a model and test its air resistance.	Write a diary entry from the perspective of famous scientist
Create a forces diagram showing how forces work	Make a poster all about gravity	Carry out an experiment that explores friction

Homework email:

j.butterwood@smat.org.uk

Pictures of homework will then be printed in school and added to our creative homework display.

Thank you for your continued support - Mr. Butterwood, Mrs. Arnold and Mrs. Copley
