

What should I already know?

Location and place knowledge

- Name the countries of the UK
- Name the capital cities of the 4 countries within the UK.
- Locate the countries of the UK on a map.
- Locate the capital cities of the countries of the UK on a map.
- Identify characteristics of the four countries of the UK.

Human and Physical

- Use basic geographical vocabulary to describe physical and human features (e.g. valley, dunes, harbours, pier, mosque, post).
- Seasonal patterns of the UK (Autumn, Winter, Spring, Summer).
- Describe key features of seasons in the UK.
- Identify daily weather patterns of the UK.

Geographical Skills & Enquiry

- Use World maps, atlases and globes to locate the countries of the UK.
- Find information about the local area using aerial photographs.
- Recognise simple features on maps such as buildings, roads and fields.
- Know that symbols mean something on maps.
- Know the meaning of some basic Ordnance Survey symbols.
- Draw a simple map
- Make observations of the local area through fieldwork
- Use a range of locational and directional language to describe a route (e.g. route to school)
- Use maps to talk about everyday life
- Use symbols on their own maps

7 Continents

Countries around the world

Key information

5 Oceans

Traditions

Vocabulary

Continent - A large land mass separated by oceans

Equator - An imaginary line drawn half way between the North and South Pole.

Ocean - Salt water that covers almost 3/4 of the Earth's surface.

Globe - A rounded object that shows a map of the world

Country - Continents are divided up into separate countries of France, Germany

Geography

Location and place knowledge

Expected

- Name the World continents and oceans.
- Locate the 7 continents of the World on a World map or globe.
- Locate the 5 oceans of the World on a World map or globe.
- Locate the equator on a World map or globe.
- Locate the North and South Poles on a map of the world or globe.

Human and Physical Geography

- Understand what the equator is.
- Identify hot and cold areas of the world in relation to the equator and the North and South Poles.
- Use basic geographical vocabulary provided to describe the physical and human features of locations
- Identify similarities and differences between locations (UK & non-European) using some geographical vocabulary

Geographical Skills & Enquiry

Understand that a World Map shows all of the continents, countries and oceans of the world.

- Use World maps and globes to locate the 7 continents and 5 oceans of the World.
- Use locational and directional language to describe location (e.g. North America is above South America. Asia is to the right of Europe. Africa is below Europe.).
